

RESOLUTION
TO SUPPORT THE COAST GUARD ACADEMY'S NEED FOR ATHLETIC FIELDS AND
'GREEN SPACE'

Whereas, the United States Coast Guard Academy uses athletic competition, physical education, and wellness activities to develop its students and to attain its Shared Learning Outcomes; and

Whereas, the Academy has seen a dramatic increase in the number and variety of intercollegiate and club sports over the past twenty years; and

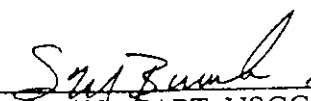

Whereas, the Academy outdoor track and field facility has been unsuitable for intercollegiate competition for over a decade; and

Whereas, the Academy lacks sufficient field space for current fall programs;

Now, therefore, The Board of Trustees endorses the need for 'green space' at the Academy and supports the Superintendent's efforts to investigate alternatives to position the Academy for current and future athletic and physical development needs. Planning and progress in this area should be reflected in and be consistent with the Academy Master Plan.
